## Background and Experience

Please briefly present the partner organisation

Ecocenter is a Public Benefit Foundation. It was founded in 2011.

Our main priority is to protect the human energy and health through the protection of the environment.

The activity of Ecocenter Benefit Foundation connects education, culture, health and eco-friendly issues for sustainable, quality lifestyle and for the protection of the cultural and natural environment. The main activities of the Foundation are to provide education and trainings in various subjects for individuals, schools, SMEs and organisations, consultation and competence recognition services in order to connect education and training with the qualitative, sustainable lifestyle. The foundation regularly organises events, forums, workshops, health screening programs, conferences and thematic days for local people, children, youth, NGOs and companies in order to achieve its main goals.

Ecocenter Benefit Foundation can contribute to the improvement of the quality of life of the different segments of society providing possibility to improve their competences through different courses and actions. The Foundation has participated in volunteer program for youth and professionals in order to involve them to create an active society, the Foundation can bring closer the representatives of the different social areas - Education to the public - and economic needs, the cultural institutions and educational centers, the local authorities to the NGOs and general public as well and providing competitive opportunities to the different social groups.

As an adult training provider, the Foundation has the intention of running the developed e-learning material in the project afterlife as adult education in order to improve the eco-friendly competences of different SMEs.

We have a wide network and database of national connections: authorities, companies, individuals.

The expertise of the key staff involved in the project will guarantee the professional and competent execution of valorization that will raise the awareness of the project in the target group.

What are the activities and experience of the organisation in the areas relevant for this application?

Ecocenter possesses broad professional and business network and personal connections with cultural institutions, local authorities and NGOs, business parties and SMEs, educational institutions, that can be used during the project. The centre has good experience to discover various methods of creative and special educational methods and also of the development of sample training materials and methodology, including ICT elements.

Ecocenter has the necessary connections to the local and national media channels, newspapers and platforms.

Through the professional experience Ecocenter can contribute successfully to planned workshops and the development of the training material, contributing and provide assistance to the implementation of coordination and management tasks, quality management including external and internal evaluation.

It has wide experience in directing events and exhibitions, allocating budget and timetables keeping up-to-date connection with key partners and stakeholders, relevant authorities, institutions and Vet centers, media and NGOs, preparing reports and researches, allocation of budget and timetable.

We have a great experience in Leonardo da Vinci Innovation Transfer project and in the new Erasmus Plus.

What are the skills and expertise of key staff/persons involved in this application?

Key staff involved: The staff of the Foundation has gained relevant and deep professional experience in dissemination activities. The teaching staff of Ecocenter has experience in managing national and EU founded projects, submitting grants and preparing projects.

Györk Halász – President

He has experience in:

- Directing and coordinating Educational Conferences
- Marketing events and actions
- Project proposal development
- International professional exhibition and study tour organisation
- Project management
- Consultancy on agriculture and rural development, fund raising
- Organising conferences, trade events

Viktória Varga - Project manager, Exhibition manager.

She has experience in:

- coordinating and managing the EU projects
- keeping up-to-date contact with companies, owners, customers, suppliers and authorities

- project administration and finance
- project development
- developing training materials and educational guidelines
- experience in exhibition coordination process, planning, keeping deadlines

Lili Perényi-Harka- Newest member of the team, working as a project coordinator. Really enthusiastic, hardworking young girl, with lots of new ideas and a lot of energy.

Réka Szilágyi-President and Educational director of EuroHungaricum Public Benefit Foundation

Professional management of the following projects:

International computer competition for students: Announcement of an informatics competition for students from surrounding countries ( Romania, Slovakia, Ukraine, Austria, Serbia- Montenegro), coordination of applications, organisation of travel and lodging, running of the competition, invitation of jury members, scholarships, work opportunities, advertisements, arranging of publication opportunities, presentation of bounties.

Meeting of Foreign and Hungarian students: Organization of study trips to Hungary for students arriving from German and English language areas, in cooperation with the respective foreign school. Meetings, common programs with Hungarian students, study of the language, establishment of relationships with the addition of education of Studies of the European Union which also provides useful experience and an opportunity to establish relations. It is the foreign schools who contact our school with the intention of getting their groups to participate in our programs.

Education, courses, conferences: Our foundation provides training at a discount price to young people and students in various subjects. Our teachers are well trained with a high level of professional competence. Our training includes Studies of the European Union, language teaching, and education in environmental protection. We help to young entrants by providing counselling to them as well as we provide enterprising youth with data on entrepreneurial skills and information on starting an enterprise.

As a result of the support gained from the National Civil Fund we organized training courses for civil organizations titled "Project planning and management from the EU viewpoint". The purpose of the program is to train professionals who, having learned the scientific basis, methodology and intervention tools of project planning and management from the EU viewpoint, are able to work in civil organizations.

„ÖkoPlaza” event– a series of events regarding environmental protection. The program is about the shaping of attitudes, education and environment conscious life style. The purpose of its education in environmental protection is to increase public awareness and initiate the development of an attitude based on conscious and active participation regarding environmental protection, the reasonable utilization of natural resources as well as regarding healthy life styles. The event series promotes the creation of a knowledge-based society forwarding the interests of environmental protection. In order to realize our program we have won the financial support of the Ministry of Environment and Water. We organize our programs in large shopping malls called „SWPlazas

Eszter Bederna- project writer

She has experience in writing projects, tenders, professional in financial reports, complete tasks in a really high level
