

Project: Eco-Toolbox For Active Youth
Project Code 2021-2-MT01-KA220-YOU-000050879
Erasmus+ Call for proposals KA220-YOU - Cooperation partnerships in youth

Press release

No. 1

Transnational project partners meeting in Gharb Gozo, Malta

Details about the meeting

- *Dates of the meeting:* **4th to 7th November 2022**
- *Where was held:* **Gharb Gozo, Malta**
- *Host organization:* **GENISTA RESEARCH FOUNDATION Malta**
- *Whom attended:*
INSTITOYTO KOINONIKIS KAINOTOMIAS KAI SYNOXIS Greece
European Center for Research and Regional Development Latvia
Zavod Boter Slovenia Jugovzhodna Slovenija
Ecocenter Alapítvány Hungary
- *Aim of the meeting:* **This was the kick off meeting of the Eco-toolbox which is a 24month project dealing with the lack of youth capacity on climate change and environmental awareness through GBL offered by trained youth workers through GBL processes. Having as target group youth workers and young people, Eco-toolbox sets the following objectives:**
 - **identify the importance of environmental crisis and climate change adaptation needs**
 - **raise awareness on the urgent need for the active involvement of youth in actions towards a low-carbon lifestyle**
 - **provide young people and youth workers working with young people non-formal education on climate change crisis by giving them the appropriate supplies and for their future more effective engagement**
 - **equip them with the necessary tools & competences needed to come up with creative, innovative solutions in climate change combat**
 - **bring them in contact with the good practices applied in present-implementing environmental actions**
 - **introduce an innovative GBL training package for Youth workers that will guide and support them to provide quality training on target groups (youths) on environmental issues and climate change**
 - **bring them close to the use of ICT game-based environment**
 - **show them the effectiveness of the connection between GBL process and green practices education**
 - **inform them about the opportunities provided through GBL processes and transmit to them the idea of protecting the environment through green practices implementation in youth work**
 - **empower those who are part of a population affected most by the effects of the environmental crisis.**
